PART I: SETTING THE STAGE

Chapter 1: What Logic Studies
A. Statements and Arguments
B. Recognizing Arguments
   Exercises 1B
C. Arguments and Explanations
   Exercises 1C
D. Truth and Logic
E. Deductive and Inductive Arguments
   Exercises 1E
F. Deductive Arguments: Validity and Soundness
   Argument Form
   Counterexamples
   Summary of Deductive Arguments
   Exercises 1F
G. Inductive Arguments: Strength and Cogency
   Techniques of Analysis
   The Role of New Information
   Summary of Inductive Arguments
   Exercises 1G
H. Reconstructing Arguments
   Exercises 1H
Summary
Key Terms
Logic Challenge: The Problem of the Hats

PART II: INFORMAL LOGIC

Chapter 2: Language Matters
A. Intension and Extension
   Terms, Use, and Mention
   Two Kinds of Meaning
   Proper Names
   Exercises 2A
B. Using Intensional Definitions
   Synonymous Definitions
   Word Origin Definitions
   Operational Definitions
   Definition by Genus and Difference
C. Using Extensional Definitions
   Ostensive Definitions

Preface
Enumerative Definitions
Definition by Subclass

Exercises 2C

D. Applying Definitions
Stipulative Definitions
Lexical Definitions
Functional Definitions
Precising Definitions
Theoretical Definitions
Persuasive Definitions

Exercises 2D

E. Guidelines for Informative Definitions

Exercises 2E

F. Cognitive and Emotive Meaning

Exercises 2F

G. Factual and Verbal Disputes

Exercises 2G

Summary
Key Terms
Logic Challenge: The Path

Chapter 3: Diagramming Arguments

A. The Basics of Diagramming Arguments
B. Diagramming Extended Arguments

Exercises 3B

Summary
Key Terms
Logic Challenge: The Train to Vegas

Chapter 4: Informal Fallacies

A. Why Study Fallacies?
B. Fallacies Based on Personal Attacks or Emotional Appeals
   Fallacies Based on Personal Attacks
   1. Ad Hominem Abusive
   2. Ad Hominem Circumstantial
   3. Poisoning the Well
   4. Tu Quoque
   Fallacies Based on Emotional Appeals
   5. Appeal to the People
   6. Appeal to Pity
   7. Appeal to Fear or Force

Summary of Fallacies Based on Personal Attacks
Summary of Fallacies Based on Emotional Appeals

Exercises 4B

C. Weak Inductive Argument Fallacies
   Generalization Fallacies
8. Rigid Application of a Generalization
9. Hasty Generalization
10. Composition
11. Division
12. Biased Sample

False Cause fallacies
13. Post Hoc
14. Slippery Slope

Summary of Weak Inductive Argument Fallacies

Exercises 4C

D. Fallacies of Unwarranted Assumption or Diversion

Unwarranted Assumption
15. Begging the Question
16. Complex Question
17. Appeal to Ignorance
18. Appeal to an Unqualified Authority
19. False Dichotomy

Fallacies of Diversion
20. Equivocation
21. Straw Man
22. Red Herring
23. Misleading Precision
24. Missing the Point

Summary of Fallacies of Unwarranted Assumption and Diversion

Exercises 4D

E. Recognizing Fallacies in Ordinary Language

Exercises 4E

Summary
Key Terms
Logic Challenge: A Clever Problem

PART III: FORMAL LOGIC

Chapter 5: Categorical Propositions

A. Categorical Propositions

Exercises 5A

B. Quantity, Quality, and Distribution

Exercises 5B

C. Existential Import

D. The Modern Square of Opposition and Venn Diagrams

Venn Diagrams
Exercises 5D

E. Conversion, Obversion, and Contraposition in the Modern Square

Conversion
Obversion
Contraposition
Diagrams
Summary of Conversion, Obversion, and Contraposition

Exercises 5E

F. The Traditional Square of Opposition and Venn Diagrams

Exercises 5F.1
Venn Diagrams and the Traditional Square

Exercises 5F.2

G. Conversion, Obversion, and Contraposition in the Traditional Square

Summary of Conversion, Obversion, and Contraposition
Conversion
Obversion
Contraposition

Exercises 5G

H. Translating Ordinary Language into Categorical Propositions

Missing Plural Nouns
Nonstandard Verbs
Singular Propositions
Adverbs and Pronouns
“It Is False That…”
Implied Quantifiers
Nonstandard Quantifiers
Conditional Statements
Exclusive Propositions
“The Only”
Propositions Requiring Two Translations

Exercises 5H

Summary
Key Terms
Logic Challenge: Group Relationship

Chapter 6: Categorical Syllogisms

A. Standard-Form Categorical Syllogisms

B. Mood and Figure

Exercises 6B

C. Diagramming in the Modern Interpretation

Diagramming A-Propositions
Diagramming E-Propositions
Diagramming I-Propositions
Diagramming O-Propositions
Wrapping Up the X
Is the Syllogism Valid?

Exercises 6C

D. Rules and Fallacies Under the Modern Interpretation

Rule 1: The middle term must be distributed in at least one premise
Rule 2: If a term is distributed in the conclusion, then it must be distributed in a premise
Rule 3: A categorical syllogism cannot have two negative premises
Rule 4: A negative premise must have a negative conclusion
Rule 5: A negative conclusion must have a negative premise
Rule 6: Two universal premises cannot have a particular conclusion

Exercises 6D

E. Diagramming in the Traditional Interpretation
   A-Propositions
   E-propositions
   Exercises 6E

F. Rules and Fallacies Under the Traditional Interpretation
   Exercises 6F

G. Ordinary Language Arguments
   Reducing the Number of Terms in an Argument
   Exercises 6G.1
   Paraphrasing Ordinary Language Arguments
   Categorical Propositions and Multiple Arguments
   Exercises 6G.2

H. Enthymemes
   Exercises 6H

I. Sorites
   Exercises 6I

Summary
Key Terms
Logic Challenge: The Four Circles

Chapter 7: Propositional Logic

A. Logical Operators and Translations
   Simple and Compound Statements
   Negation
   Conjunction
   Disjunction
   Conditional
   Distinguishing "If" from "Only If"
   Sufficient and Necessary Conditions
   Biconditional
   Exercises 7A

B. Compound Statements
   Well-Formed Formulas
   Exercises 7B.1
   Main Operator
   Exercises 7B.2
   Translations and the Main Operator
   Exercises 7B.3

C. Truth Functions
   Defining the Five Logical Operators
   Negation
Conjunction
Disjunction
Conditional
Biconditional
Exercises 7C.1
Operator Truth Tables and Ordinary Language
Propositions with Assigned Truth Values
Exercises 7C.2
D. Truth Tables for Propositions
Arranging the Truth Values
The Order of Operations
Exercises 7D
E. Contingent and Noncontingent Statements
Tautology
Self-Contradiction
Exercises 7E
F. Logical Equivalence and Contradictory, Consistent, and Inconsistent Statements
Logical Equivalence
Exercises 7F.1
Contradictory, Consistent, and Inconsistent Statements
Exercises 7F.2
G. Truth Tables for Arguments
Validity
Analyzing Sufficient and Necessary Conditions in Arguments
Technical Validity
Exercises 7G.1
Argument Form
Exercises 7G.2
H. Indirect Truth Tables
Thinking Through an Argument
A Shorter Truth Table
Exercises 7H.1
Using Indirect Truth Tables to Examine Statements for Consistency
Exercises 7H.2
Summary
Key Terms
Logic Challenge: A Card Problem

Chapter 8: Natural Deduction
A. Natural Deduction
B. Implication Rules I
   Modus Ponens (MP)
   Modus Tollens (MT)
   Hypothetical Syllogism (HS)
   Disjunctive Syllogism (DS)
   Justification: Applying the Rules of Inference
Exercises 8B
C. Tactics and Strategy
   Applying the First Four Implication Rules
Exercises 8C
D. Implication Rules II
   Simplification (Simp)
   Conjunction (Conj)
   Addition (Add)
   Constructive Dilemma (CD)
   Applying the Second Four Implication Rules
Exercises 8D
E. Replacement Rules I
   De Morgan (DM)
   Double Negation (DN)
   Commutation (Com)
   Association (Assoc)
   Distribution (Dist)
   Applying the First Five Replacement Rules
Exercises 8E
F. Replacement Rules II
   Transposition (Trans)
   Material Implication (Impl)
   Material Equivalence (Equiv)
   Exportation (Exp)
   Tautology (Taut)
   Applying the Second Five Replacement Rules
Exercises 8F
G. Conditional Proof
   Exercises 8G
H. Indirect Proof
   Exercises 8H
I. Proving Logical Truths
   Exercises 8I
Summary
Key Terms
Logic Challenge: The Truth

Chapter 9: Predicate Logic
A. Translating Ordinary Language
   Singular Statements
   Universal Statements
   Particular Statements
   Paying Attention to Meaning
   Exercises 9A
B. Four New Rules of Inference
   Universal Instantiation (UI)
Universal Generalization (UG)
Existential Generalization (EG)
Existential Instantiation (EI)
Summary of the Four Rules
Tactics and Strategy
Exercises 9B
C. Change of Quantifier
   Exercises 9C
D. Conditional and Indirect Proof
   Conditional Proof (CP)
   Indirect Proof (IP)
   Exercises 9D
E. Demonstrating Invalidity
   Counterexample Method
   Finite Universe Method
   Indirect Truth Tables
   Exercises 9E
F. Relational Predicates
   Translations
   Exercises 9F.1
   Proofs
   A New Restriction
   Change of Quantifier
   Conditional Proof and Indirect Proof
   Exercises 9F.2
G. Identity
   Simple Identity Statements
   “Only”
   “The Only”
   “No . . . Except”
   “All Except”
   Superlatives
   “At Most”
   “At Least”
   “Exactly”
   Definite Descriptions
   Exercises 9G.1
   Proofs
   Exercises 9G.2
Summary
Key Terms
Logic Challenge: Your Name and Age, Please

PART IV: INDUCTIVE LOGIC
Chapter 10: Analogical Arguments
A. The Framework of Analogical Arguments
   Exercises 10A
B. Analyzing Analogical Arguments
   Criteria for Analyzing Analogical Arguments
   Exercises 10B
C. Strategies of Evaluation
   Disanalogies
   Counteranalogy
   Unintended Consequences
   Combining Strategies
   Exercises 10C
Summary
Key Terms
Logic Challenge: Beat the Cheat

Chapter 11: Legal Arguments
A. Deductive and Inductive Reasoning
B. Conditional Statements
C. Sufficient and Necessary Conditions
D. Disjunction and Conjunction
E. Analyzing a Complex Rule
   Exercises 11E
F. Analogies
G. The Role of Precedent
   Exercises 11G
Summary
Key Terms
Logic Challenge: A Guilty Problem

Chapter 12: Moral Arguments
A. Value Judgments
   Justifying “Should”
   Types of Value Judgments
   Taste and Value
   Exercises 12A
B. Moral Theories
   Emotivism
   Consequentialism
   Egoism
   Utilitarianism
   Deontology
   Relativism
   Contrasting Moral Theories
   Exercises 12B
C. The Naturalistic Fallacy  
D. The Structure of Moral Arguments  
E. Analogies and Moral Arguments  
   Exercises 12E  
Summary  
Key Terms  
Logic Challenge: Dangerous Cargo  

Chapter 13: Statistical Arguments and Probability  
A. Samples and Populations  
   Exercises 13A  
B. Statistical Averages  
   Exercises 13B  
C. Standard Deviation  
   Dividing the Curve  
   The Size of the Standard Deviation  
   How to Calculate the Standard Deviation  
   Exercises 13C  
D. What If the Results Are Skewed?  
E. The Misuse of Statistics  
   Exercises 13E  
F. Probability Theories  
   A Priori Theory  
   Relative Frequency Theory  
   Subjectivist Theory  
G. Probability Calculus  
   Conjunction Methods  
   Disjunction Methods  
   Negation Method  
   Exercises 13G  
H. True Odds in Games of Chance  
I. Bayesian Theory  
   Exercises 13I  
Summary  
Key Terms  
Logic Challenge: The Second Child  

Chapter 14: Causality and Scientific Arguments  
A. Sufficient and Necessary Conditions  
   Exercises 14A  
B. Causality  
C. Mill’s Methods  
   Method of Agreement  
   Method of Difference  
   Joint Method of Agreement and Difference  
   Method of Residues
Method of Concomitant Variations

Exercises 14C

D. Limitations of Mill’s Methods
E. Theoretical and Experimental Science
F. Inference to the Best Explanation
G. Hypothesis Testing, Experiments, and Predictions
   Controlled Experiments
   Determining Causality
H. Science and Superstition
   The Need For a Fair Test
   Verifiable Predictions
   Nontrivial Predictions
   Connecting the Hypothesis and Prediction
   Science and Superstition
   The Allure of Superstition
   Exercises 14H

Summary
Key Terms
Logic Challenge: The Scale and the Coins

Online Chapter 15: Analyzing a Long Essay

Instructors interested in providing students with an opportunity for further analysis can refer them to Chapter 15: Analyzing a Long Essay, located on the Companion Website.

A. Childbed Fever
   Exercises 15B
B. Vienna
   Exercises 15C
C. Miasm and Contagion
   Exercises 15C
D. Semmelweis’s Account of the Discovery
   Exercises 15D
E. Initial Questions
   Exercises 15E
F. A New Interpretation
   Exercises 15F

Summary
